PUBLICATIONS OF THE GEOLOGICAL SOCIETY OF AMERICA

Regular Publications

The Society issues a single serial publication entitled Bulletin of the Geological Society of America. This serial is made up of *proceedings* and *memoirs*, the former embracing the records of meetings, with abstracts and short papers, lists of Fellows, etc, and the latter embracing the larger papers accepted for publication. The matter is issued as soon as possible after acceptance, in covered brochures, which are at once distributed to Fellows and exchanges. The brochures are arranged for binding in annual volumes, which are elaborately indexed.

The Bulletin is sold to Fellows and the public either in full volumes or in separate brochures. The volume prices are, to Fellows, a variable amount, depending on the cost of publication; and to libraries and the public, the fixed amounts given below. The brochure price for volumes 1 and 2 are given on pages ix–xi of volume 2; the prices for the brochures of volume 3 are given on pages viii–ix of that volume.

Volume 1, covering the work of the Society from the organization, in 1888, to the end of 1889, comprises 593 + xii pages, 13 plates and 51 cuts. Price to Fellows, $4.50; to libraries, $5.00; to the public, $10.00.

Volume 2, covering the work of the Society for 1890, comprises 662 + xiv pages, 23 plates and 63 cuts. Price to Fellows, $4.50; to libraries, $5.00; to the public, $10.00.

Volume 3, covering the work of the Society for 1891, comprises 541 + xii pages, 17 plates and 72 figures. Price to Fellows, $4.00; to libraries, $5.00; to the public, $10.00.

Volume 4, covering the work of the Society for 1892, comprises 458 + xi pages, 10 plates and 55 figures. Price to Fellows, $3.50; to libraries, $5.00; to the public, $10.00.

Volume 5, covering the work of the Society for 1893, is now complete, and comprises 665 + xii pages, 21 plates and 43 figures. Price to Fellows, $4.00; to libraries, $5.00; to the public, $10.00. The volume is made up of 27 brochures, as follows:

Irregular Publications.

In the interest of exact bibliography, the Society takes cognizance of all publications issued either wholly or in part under its auspices. Each author of a memoir receives 30 copies without cost, and is authorized to order any additional number at a slight advance on cost of paper and presswork; and these separate brochures are identical with those of the editions issued and distributed by the Society. Contributors to the Proceedings are also authorized to order any number of separate copies of their papers at a slight advance on cost of paper and presswork; but such separates are bibliographically distinct from the brochures issued by the Society.

The following separates of parts of volume 5 have been issued:
